REPORT

EXTERNAL TRADE OF BENGAL

NEPAL, SIKKIM, AND BHUTAN

FOR THE YEAR 1885-86.

THE arrangements for collecting statistics of the external trade on the most important routes of traffic between Bengal and Nepal, Sikkim, and Bhutan remained substantially unchanged during the past year. The registering stations for the Bhutan trade remained unchanged, but on the Sikkim frontier, Rhenok and Kalimpong were substituted for Pheydong from 1st June 1885, and Silligooree took the place of Nuksurbari as a registering station for Nepal trade from the same date.

2. The total value of the registered trade of Bengal with these three States during the past three years is shown below :—

Imports into Bengal.					Exports from Bengal.				
		1883-84.	1884-85.	1885-86.			1883-84.	1884-85.	1885-86.
		Rs.	Rs.	Rs.			Rs.	Rs.	Rs.

3. The aggregate value of the registered trade with other provinces which passed through Bengal during those years was :—

Year.	Imports into other provinces from Nepal.			Exports from other provinces to Nepal.	
	Rs.			Rs.	
1883-84	1,28,423	5,56,168
1884-85	1,08,681	2,80,265
1885-86	2,49,913	2,25,991

4. The grand total of the import and export trade brought within the scope of registration, therefore, during the past three years was as follows :—

Year.	Imports.		Exports.		Total.
	Rs.		Rs.		Rs.
1883-84	...	76,92,506	...	72,48,809	1,48,71,315
1884-85	...	78,35,676	...	74,55,405	1,52,91,081
1885-86	...	1,03,40,583	...	60,51,212	1,63,91,795

According to these figures, the total value*of both sections of the trade of the past year increased by 7·11 per cent. as compared with 1884-85, and by 10·22 per cent. as compared with 1883-84. It will be seen that while the

imports showed a large advance of 31·07 per cent. over the figures of 1884-85, and 35·66 per cent. over those of 1883-84, the exports declined by 18·83 per cent., and 16·52 per cent. as compared with the two previous years, respectively. The details of the fluctuations will be explained further on in the different sections of the trade dealt with in this report.

5. The total value of the imports into, and exports from, Nepal during 1885-86, exclusive of the trade between that State and other provinces, is compared below with the figures of the two previous years:—

YEAR.			Imports from Nepal.	Exports to Nepal.	Total.
			Rs.	Rs.	Rs.
1883-84	71,76,210	64,56,930	1,36,33,140
1884-85	72,16,819	68,18,097	1,40,34,916
1885-86	93,18,431	52,27,817	1,45,46,248

The aggregate value of the past year's trade rose by 3·64 per cent. and 6·69 per cent. as compared with 1884-85 and 1883-84, respectively. The import trade showed an increase of 29·12 per cent. as compared with 1884-85 and of 29·85 per cent. as compared with the previous year; but the export trade exhibited a falling off of 23·33 per cent. and 19·04 per cent. in comparison with the preceding two years, respectively. The greatest improvement was in rice (2,55,634 maunds), paddy (1,12,441 maunds), other rain crops (80,294 maunds), linseed (58,182 maunds), woollen stuffs (Rs. 50,259), silk stuffs (Rs. 28,420), and saltpetre (9,499 maunds), and the chief items of decrease were cotton piece-goods (Rs. 4,66,427), timber (1,00,516 maunds), fresh fruits and vegetables (16,041 maunds), gram and pulse (11,105 maunds), skins of sheep, goats and other small animals (10,111 pieces), cattle (7,399 head), and spices (7,238 maunds.)

6. The following statement shows for the past three years, the quantity and value of the principal articles in the import and export trade between Bengal and Nepal, and does not include the statistics of the trade between that State and other provinces which passed through Bengal:—

7. *Cattle*.—The past year's trade showed a large falling off of 7,399 head, or 22·89 per cent., and of 4,192 head, or 14·40 per cent. as compared with 1884-85, and 1883-84, respectively. While the imports fell by 7,956, or 27·21 per cent., the exports rose by 557, or 18·12 per cent. There was a decrease of 3,554 cattle imported into the Mozufferpore district, 2,442 into the Purneah district, and 1,743 into the Chumparun district. Chumparun, as usual, exported the largest number, viz. 2,424, or 66·78 per cent. of the total exports, against 68·79 per cent. in the previous year.

8. *Cotton piece-goods*.—There was a further large decrease in the exports of European piece-goods, the value having fallen by Rs. 3,07,174, or 16·47 per cent. as compared with 1884-85, and by Rs. 5,77,738, or 27·06 per cent. as compared with 1883-84. The consignments from Calcutta decreased by Rs. 1,37,717, from the Chumparun district by Rs. 93,292, from the Patna district by Rs. 34,129, and from the Durbhunga district by Rs. 23,977. The largest supplies were registered at Ruxoul (Rs. 3,71,968 worth), Kutkenwa (Rs. 3,41,165

worth), and Adapore (Rs. 2,47,004 worth); these three stations are in the Chumparun district. The trade in Indian piece-goods was greatly depressed during the past year, the value of the exports having fallen to a little below half the trade of 1884-85, viz. from Rs. 3,36,557 to Rs. 1,62,654. The following comparative statement shows the exports of European piece-goods registered at the different stations during the past three years:—

The trade was very brisk during the year. The imports from Nepal, which fell from 15,45,390 maunds in 1883-84, to 11,95,325 maunds in 1884-85, rose during the past year to 16,29,938 maunds, or by 5·47 per cent. and 36·36 per cent. as compared with the two previous years, respectively. The principal districts which contributed to the increase were Sarun (1,40,741 maunds), Mozufferpore (1,30,683 maunds), Durbhunga (91,545 maunds), and Chumparun (78,049 maunds). The largest decrease was in the Darjeeling district, viz., 33,571 maunds.

The following statement shows the total quantity of food-grains imported through each registering post, district by district, during the year :—

10. *Hides of cattle.*—This trade, which is confined to imports, showed an increase of 3,531 hides, or 7·29 per cent., as compared with 1884-85, but a slight decrease of 1,057 hides, or 1·99 per cent., when compared with 1883-84. The chief importing marts were Mozufferpore, which received 14,662 pieces, Chumparun 13,277 pieces, and Calcutta 10,271 pieces. The principal registering stations were—

11. *Skins of sheep, goats and other small animals.*—The improvement noticed in the imports in 1884-85 was not maintained during 1885-86. The past year's trade, which amounted to 64,257 skins, was 13·60 per cent. less than that of 1884-85. Compared with 1883-84, however, the number of skins imported last year was 27·81 per cent in excess. The chief falling off was in the supplies consigned to Calcutta, where only 29,663 pieces were received during the year, against 57,867 pieces in the previous year.

12. *Brass and copper.*—The quantity exported during 1885-86 showed a further decline amounting to 1,438 maunds, the supplies being 11,540 maunds, against 12,978 maunds in 1884-85, and 19,541 maunds in 1883-84. The decrease last year is principally accounted for by a falling off of 2,677 maunds in Chumparun, 907 maunds in Mozufferpore, 639 in Patna, 379 in Sarun, and 170 maunds in Bhagulpore, against an increase of 2,711 maunds in Calcutta, and 697 maunds in Purneah.

13. *Iron.*—The export trade, which rose from 13,372 maunds in 1883-84 to 20,185 maunds in 1884-85, fell during the past year to 17,900 maunds, or by 11·32 per cent. The exports from Calcutta increased by 2,439 maunds, and those from Patna by 350 maunds; while the despatches from Chumparun, Mozufferpore, and Sarun were, respectively, 2,692 maunds, 1,068 maunds, and 961 maunds less than in the previous year.

14. *Ghee.*—The export trade in this article is insignificant. The quantity imported showed a decrease of 1,604 maunds, or 22·14 per cent., as compared with 1884-85, and of 1,599 maunds, or 22·09 per cent., as compared with 1883-84. The largest imports during the past three years were registered at the following places:—

15. *All other kinds of provisions.*—The total trade under this head shows a large decrease, the falling off having amounted to 5,566 maunds, or 7·77 per cent., as compared with 1884-85, and to 13,107 maunds, or 16·55 per cent., as compared with 1883-84. While the imports during the past year rose by 1,150 maunds, or 6·29 per cent., the exports fell by 6,716 maunds, or 12·58 per cent. The chief districts which despatched smaller quantities during the year were Sarun (4,618 maunds), Purneah (1,228 maunds), and Bhagulpore (1,054 maunds).

16. *Salt.*—The export trade in this article was almost stationary. Of the past year's supply, which aggregated 1,00,215 maunds, Chumparun despatched 28,918 maunds, Durbhunga 25,861 maunds, Mozufferpore 17,546 maunds, Bhagulpore 12,364 maunds, and Purneah 11,996 maunds. The exports were registered at the following stations:—

17. *Saltpetre*.—The trade in saltpetre, which is confined to imports, amounted during the past year to 19,739 maunds, which was nearly double the quantity received in 1884-85, and 85·93 per cent. in excess of that received in 1883-84. The chief fluctuations which led to the increase of 9,490 maunds in the past year, were, an increase of 10,655 maunds in the Mozufferpore district, and a decrease of 1,155 maunds in the Chumparun district.

18. *Oilseeds*.—The chief staples in which the trade is of importance under this head are linseed and mustard seed. The total imports of these two staples showed an advance of 60,405 maunds, or 27·05 per cent., over the figures of 1884-85, and of 39,381 maunds, or 16·11 per cent., over those of 1883-84. Under linseed, there was an increase of 53,063 maunds, or 49·96 per cent., as compared with 1884-85, but a decrease of 17,286 maunds, or 9·02 per cent., as compared with 1883-84; while under mustard seed, the figures showed an advance of 2,342 maunds, or 2·19 per cent., and 56,667 maunds, or 107·32 per cent., in comparison with the two previous years, respectively. The districts which imported the largest quantities of linseed were Chumparun (69,394 maunds), Mozufferpore (50,626 maunds), and Durbhunga (41,197 maunds); and those which received the largest consignments of mustard seed were Chumparun (26,053 maunds), Mozufferpore (22,207 maunds), Purneah (21,903 maunds), Durbhunga (19,792 maunds), and Bhagulpore (18,263 maunds). The under-mentioned stations registered the supplies during the past three years:—

19. *Silk, manufactured*.—The value of these goods exported during 1885-86 showed a large increase of Rs. 29,030, or 63·92 per cent., over the figures of 1884-85, but a decrease of Rs. 23,940, or 24·33 per cent., as compared with 1883-84. Of the total value of the export trade, Kutkenwa registered Rs. 59,000 worth, and Adapore Rs. 14,000 worth. Both these stations are in the Chumparun district.

20. *Sugar*.—The import trade in this staple is unimportant. The exports showed a further falling off of 5,166 maunds, or 14·91 per cent., of which 2,140 maunds, or 82 per cent., were under drained sugar, and 3,026 maunds, or 10·82 per cent., under undrained sugar. The chief exporting districts were Chumparun, which despatched 2,317 maunds of drained, and 10,396 maunds of undrained sugar, Durbhunga 630 maunds of drained, and 3,972 maunds of undrained sugar, and Mozufferpore 501 maunds, and 3,050 maunds, respectively.

21. *Tobacco*.—The total trade showed a rise of 3,827 maunds, or 12·73 per cent., as compared with 1884-85, but a fall of 6,123 maunds, or 15·31 per cent., as compared with 1883-84. The improvement was entirely in the import trade. There was an increase of 4,368 maunds in the consignments to Purneah, and of 770 maunds in those to Patna, against a decrease of 754 maunds under Darjeeling, 350 maunds under Mozufferpore, and 322 maunds under Durbhunga. The chief despatches were made from Chumparun and Mozufferpore, which sent 10,408 maunds, and 7,525 maunds, respectively.

22. *Timber*.—The import trade in timber, which rose from 2,04,899 maunds in 1883-84, to 3,13,166 maunds in 1884-85, fell during the year under report to 2,12,550 maunds. The stations at which the largest quantities were registered during the past three years are named below:—

23. *Wool, manufactured*.—The export trade in woollen stuffs, which was valued at Rs. 1,68,911 during the year, showed an increase of Rs. 37,633, or 28·67 per cent., as compared with 1884-85, but a decrease of Rs. 99,604, or 37·09 per cent., as compared with 1883-84. The increase in the exports from Calcutta amounted to Rs. 17,335, and from Chumparun to Rs. 25,181. The largest supplies were registered at Kutkenwa (Rs. 89,850 worth), Ruxoul (Rs. 33,768 worth), and Adapore (Rs. 31,588 worth).

24. It was stated in the last year's report that of the two stations, viz., Runjeet and Pheydong, at which the trade between Bengal and Sikkim used to be registered, orders had been issued to close the latter station, and to open two new ones—Rhenok and Kalimpong; this arrangement took effect from the 1st June 1885. The statistics given in this report therefore relate to the trade registered (1) at Runjeet during the whole year, (2) at Pheydong during April and May 1885, and (3) at the two new stations during 10 months—June 1885 to March 1886. When the registration of the frontier traffic was started in 1875, Pheydong was considered to be the best point at which to register the Thibetan trade, but since then great changes have taken place, and it no longer possesses the advantages which Rhenok and Kalimpong possess.

25. The total value of the trade during the past year is compared below with that of the two previous years:—

Year.	Imports from Sikkim.	Exports to Sikkim.	Total.
	Rs.	Rs.	Rs.
1883-84	2,21,523	1,12,711	3,34,234
1884-85	3,75,987	2,04,735	5,80,722
1885-86	6,73,075	4,96,617	11,69,692

The aggregate value of the past year's registered traffic was more than double that of the previous year, and more than three times that of 1883-84. This result is no doubt due in a great measure to the opening of the two new stations in place of Pheydong. The increase shown in the import trade was so much as 79·02 per cent. when compared with 1884-85, and more than 200 per cent. when compared with 1883-84. Under exports there was an advance of 142·56 per cent., and 340·61 per cent. over the figures of the past two years, respectively. In the import trade, the articles which showed the largest

increase were ponies, cattle, fresh fruits and vegetables, gram and pulse, brass and copper, raw wool, woollen stuffs, and yak-tails. The principal items of increase in the export trade were horses, ponies, and mules, cattle, European cotton and woollen stuffs, earthenware and porcelain, and tobacco.

26. The total quantity and value of the chief items comprised in the import trade, as registered during the past three years, are given below :—

				IMPORTS FROM SIKKIM AND THIBET.

The number of ponies imported from Thibet during the past year showed a large increase. Of the total number registered, 1,264, or 71·90 per cent., were brought *via* Kalimpong, and 400, or 22·75 per cent., through Rhenok. The trade in cattle also showed a great improvement, the number being 696, against 125 in 1884-85, and 252 in 1883-84. Kalimpong registered 412, and Runjeet 173 head of cattle. The past year's trade in sheep and goats was about 30 per cent. of that of 1884-85, and about 25 per cent. of that of the previous year, the recorded numbers being 1,896 in 1885-86, 6,221 in 1884-85, and 7,365 in 1883-84. The value of the imports of musk, which amounted to Rs. 55,265 in the past year, showed a large falling off of Rs. 28,835 as compared with 1884-85, but when compared with 1883-84 a considerable increase of Rs. 52,702 is observed. The decline in the quantity registered is probably due to the closing of the Pheydong station, through which this article used to be imported in large quantities; the entire supply (Rs. 84,100 worth) registered in 1884-85 passed by that station. Of the past year's registered supply, 65·83 per cent. came *via* Kalimpong, and 30·61 per cent. through Rhenok. The largest imports were received during January, February, and March 1886, when Rs. 48,945 worth was registered. The trade in fresh fruits and vegetables showed considerable expansion during the year under report, the quantity imported being 3,612 maunds, against 1,460 maunds in 1884-85, and 2,373 maunds in 1883-84. The supply received through the Runjeet station during the year was 73·50 per cent. of the total trade. The import trade in gram and pulse is increasing year by year. The quantity brought from Sikkim last year amounted to 4,462 maunds, which was slightly more than double the figures of 1884-85, and nearly three times those of 1883-84. The past year's trade was carried on almost entirely through Runjeet, which registered 4,385 maunds, or 98·27 per cent. of the total imports. The supply of miscellaneous rain crops aggregated 23,141 maunds, against 20,204 maunds in 1884-85, and 20,847 maunds in 1883-84. The trade in these cereals also is practically confined to the Runjeet route, through which 23,132 maunds passed in 1885-86. The number of hides of cattle imported is steadily increasing, the number received during 1885-86 being 2,040, against 1,233 in 1884-85, and 751 in 1883-84. Runjeet registered 1,422, and Kalimpong 450 in the past year. For the first time last year precious stones and unset pearls were received from Thibet; the total imports were valued at Rs. 3,433, Rs. 3,183 worth passing through Kalimpong, and the rest through Rhenok. Under brass and copper, the trade during the past year showed an enormous increase, the imports being 123 maunds in 1883-84, 1·3 maunds in 1884-85, and 1,360 maunds in 1885-86. Kalimpong with 734 maunds registered more than half the year's trade. The traffic in raw wool showed a great revival during the past year; the imports, which had dwindled from 911 maunds in 1883-84 to 91 maunds in 1884-85, rose during the year to 2,555 maunds. Of the latter quantity, 1,572 maunds were brought *via* Kalimpong, and 816 maunds *via* Rhenok. The value of the

supplies of woollen stuffs imported during the year showed a large increase of Rs. 10,539, or 30·16 per cent., as compared with 1884-85, and of Rs. 14,954, or 48·99 per cent., as compared with 1883-84. Of the past year's trade, Kalimpong intercepted 80·30 per cent., Rhenok 30·19 per cent., and Runjeet the rest, viz., 9·51 per cent. The trade in yak-tails was very brisk during the year, the value of the imports being Rs. 1,16,892, against Rs. 58,794 in 1884-85 and Rs. 8,924 in 1883-84. The largest supplies were registered at Kalimpong (Rs. 70,629 worth), and Rhenok (Rs. 36,378 worth). The value of silver imported rose from Rs. 2,927 in 1884-85 to Rs. 41,497 in 1885-86. Of the latter figure, Kalimpong registered 80·39 per cent., Rhenok 19·33 per cent., and Runjeet the rest.

27. The following statement shows the quantity and value of the principal articles of export as registered during the past three years:—

This statement shows that for the first time last year horses, ponies, and mules were exported to Sikkim. The recorded number was 642, of which 545 passed through Kalimpong. The trade in cattle is rapidly increasing, the number recorded having risen from 43 in 1883-84 to 243 in 1884-85, and to 573 in the year under report. Runjeet registered 453 during the year. The trade in sheep and goats, which was carried on chiefly through Runjeet, showed an increase of 79, or 15·52 per cent., as compared with 1884-85, and of 44, or 8·09 per cent., as compared with 1883-84. The exports of European cotton twist, which fell from 6 maunds in 1883-84 to 2 maunds in 1884-85, rose in 1885-86 to 107 maunds. Of the latter quantity, 92 maunds were registered at the two new stations, viz., 62 maunds at Kalimpong, and 30 maunds at Rhenok. On the other hand, the exports of Indian twist, which rose from 25 maunds in 1883-84 to 93 maunds in 1884-85, fell during the past year to 68 maunds. Of this supply, 60 maunds were sent *via* Runjeet. Cotton piece-goods, both European and Indian, showed an advance over the figures of the two previous years. Under the former head, the past year's exports were more than double those of 1884-85, and nearly four times those of 1883-84. Of the total value of the year's exports, viz., Rs. 1,63,458, Kalimpong registered Rs. 95,463 worth, and Rhenok Rs. 40,516 worth. The value of the quantities of Indian piece-goods, which was Rs. 1,178 in 1883-84 and Rs. 2,170 in 1884-85, rose during 1885-86 to Rs. 7,204. Nearly the whole of the last year's trade passed through Runjeet, where piece-goods to the value of Rs. 6,806 were registered. There was a very trifling increase of 3 maunds in the exports of indigo as compared with 1884-85, but, when compared with 1883-84, last year's figures show a large increase of 55 maunds. The largest despatches were made *via* Runjeet and Kalimpong, at which stations 64 maunds, and 43 maunds, respectively, were intercepted. The trade in "other dyeing materials," which rose from 85 maunds in 1883-84 to 400 maunds in 1884-85, fell during the year to 254 maunds. During 1884-85 there was no export trade in earthenware and porcelain, but in 1885-86, goods valued at Rs. 10,264 were despatched to Sikkim and Thibet, chiefly through Kalimpong and Runjeet, where Rs. 6,292 worth, and Rs. 3,854 worth were registered, respectively. The quantity of rice exported during the year was 4,089 maunds, showing an increase of 1,703 maunds, and 3,014 maunds as compared with 1884-85 and 1883-84, respectively. Runjeet registered 1,789 maunds, and Kalimpong 1,354 maunds of the past

year's exports. The trade in brass and copper, although nearly three times that of 1883-84, was only 5 per cent. in excess of that of 1884-85. Of the total supply during the year, 42.09 per cent. passed by Kalimpong and 40.00 per cent. by Runjeet. The exports of tobacco rose by 48.48 per cent., and 67.78 per cent. as compared with 1884-85, and 1883-84, respectively. Kalimpong registered 54.77 per cent. of the past year's supply. There was an enormous increase in the value of European woollen piece-goods exported during the year, the value being Rs. 63,716, against Rs. 1,993 in 1884-85, and Rs. 2,930 in 1883-84. The largest exports were made through Kalimpong and Rhenok, which registered Rs. 35,163 worth and Rs. 25,844 worth, respectively, during the past year. The value of "all other articles of merchandise manufactured" amounted to Rs. 11,861, against only Rs. 4,960 in 1884-85, and Rs. 1,932 in 1883-84. The past year's trade under this head consisted chiefly of beads worth Rs. 4,143, clocks valued at Rs. 2,050, and miscellaneous articles worth Rs. 3,901. The value of the goods which passed through Rhenok during the year was Rs. 6,242, and through Kalimpong, Rs. 4,269.

28. In consequence of the late internal disturbances in Bhutan, there was a general depression in trade during the past year. In his Administration Report for 1885-86, the Deputy Commissioner of Julpigoree makes the following remarks on the subject:—

"It may be noted that the trade with Bhutan has suffered owing to the late commotions in that State, but with the establishment of a settled and peaceful Government, a revival of trade may be hoped for."

29. This trade was, as in previous years, registered at the three stations in the Julpigoree district, viz., Ambari, Hantoopara, and Buxa. The first two stations were kept open for five months, and the third station for ten months, of the year. Hantoopara is the most important station for the registration of the import trade, and Buxa for that of the export trade. The following statement shows the total value of the trade intercepted at the three stations during the past three years:—

YEARS.	Imports from Bhutan.		Exports to Bhutan.		Total.
		Rs.		Rs.	Rs.
1883-84	...	96,350	1,23,000		2,19,350
1884-85	...	1,34,189	1,43,308		2,77,497
1885-86	...	99,164	1,00,787		1,99,951

Compared with 1884-85 and 1883-84, the total value of the traffic during the past year decreased by 27.94 per cent. and 8.84 per cent., respectively. The imports showed a falling off of 26.10 per cent. as compared with 1884-85, but a small rise of 2.92 per cent. when compared with 1883-84. The export trade was 29.67 per cent. below that of 1884-85, and 18.06 per cent. below that of 1883-84. The decline in the value of the import trade in horses, woollen stuffs, madder, vegetables, caoutchouc, ghee, and musk formed a little more than 98 per cent. of the total decrease; while under exports, tobacco, sugar (undrained), European cotton piece-goods, rice and paddy account for over 82 per cent. of the total diminution in value.

30. The principal articles imported from Bhutan during the past three years are shown in the following statement:—

		IMPORTS FROM BHUTAN.					
		Quantity.			Value.

The import trade in ponies is declining, the number registered during the year being 230, against 247 in 1884-85, and 498 in 1883-84. During the past

year 132 ponies passed through Hantoopara, against 115 in 1884-85, and 338 in the previous year; the number registered at Ambari was 98, against 113 and 156 in the preceding two years, respectively. None came *via* Buxa in 1885-86, but in 1884-85 the number which took this route was 19, and in the previous year 4. The quantity of caoutchouc brought from Bhutan during the year under report was only 16 maunds, which is about one-fourth of the previous year's imports. The supplies during both years were intercepted at Buxa. The trade in musk showed a falling off of 20·61 per cent. as compared with 1884-85, but an advance of 12·02 over the figures of 1883-84. The chief route adopted was that through Buxa, where 94·97 per cent. of the total imports were registered during the past year, against 99·32 per cent. in the previous year. The trade in madder or manjit, which in 1884-85 was more than double that of 1883-84, fell during the past year to the level of 1883-84. This trade is almost entirely carried on through Hantoopara, where 92·57 per cent. of the total imports were registered in 1885-86, 97·45 per cent. in 1884-85, and 90·61 per cent. in 1883-84. Fresh fruits and vegetables declined by 15·71 per cent. in comparison with 1884-85, but improved by 16·41 per cent. on the figures for 1883-84. In the case of this trade, too, Hantoopara is the principal registering station, the quantity intercepted there being 96·95 per cent. of the total imports in 1885-86, against 96·61 per cent. in 1884-85, and 97·42 per cent. in 1883-84. The quantity of ghee brought from Bhutan showed a further large falling off during the past year; the imports amounted to only 42 maunds, against 109 maunds in 1884-85, and 224 maunds in 1883-84. The trade in wax showed an improvement during the past year, the quantity registered being 257 maunds, against 229 maunds in 1884-85, and 250 maunds in 1883-84. This article was not imported during the past two years through Hantoopara, but chiefly *via* Buxa, where 208 maunds, or 80·93 of the total imports, were registered in the past year, against 221 maunds, or 96·51 per cent., in 1884-85. Compared with 1884-85, the past year's imports of firewood showed a trifling increase of 1·13 per cent., but when compared with 1883-84, a large increase of 52·42 per cent. is observable. The Buxa route is the only one through which this trade is carried on. The total value of woollen stuffs imported from Bhutan during the year aggregated Rs. 13,817, against Rs. 20,635 in 1884-85, and Rs. 18,285 in 1883-84. Of the total imports during the past three years, Buxa registered 51·05 per cent. in 1885-86, 52·11 per cent. in 1884-85, and 38·34 per cent. in 1883-84; Hantoopara 22·38 per cent., 21·63 per cent., and 20·75 per cent., respectively; and Ambari 26·57 per cent., 26·26 per cent., and 40·91 per cent., respectively. The trade in yak-tails, which is carried on chiefly through Buxa, has not improved, the value of the imports during the past year, being Rs. 1,293, against Rs. 1,453 in 1884-85, and Rs. 1,860 in 1883-84. The value of "all other articles of merchandise unmanufactured" fell from Rs. 2,112 in 1884-85, to only Rs. 200 in 1885-86. The details of the former amount are ivory (elephant tusks) Rs. 1,620, rhinoceros horns, Rs. 413, and miscellaneous articles, Rs. 79, while the past year's imports under this head were confined to ivory.

31. The following statement shows the principal articles of trade exported to Bhutan during the past three years:—

There was a decrease of 25·36 per cent. in the trade in European cotton piece-goods as compared with 1884-85, and of 23·46 per cent. as compared with the previous year. The chief exporting route is *via* Buxa, through which 95·93 per cent. of the total trade passed in 1885-86, 95·57 per cent. in 1884-85,

and 89.37 per cent. in 1883-84. During the past two years no piece-goods were exported *via* Hantoopara; in 1883-84 only Rs. 70 worth were registered at that station. There was no trade in indigo during the year. The quantity of rice and paddy registered during the year exhibited a falling off of 22.09 per cent. in comparison with 1884-85, and of 1.50 per cent. when compared with 1883-84. In the case of rice, by far the largest trade is carried on through Buxa, at which station 78.26 per cent. of the total exports were registered in 1885-86, 76.81 per cent. in 1884-85, and 74.54 per cent. in 1883-84; the next station in importance is Hantoopara, at which 18.99 per cent., 22.02 per cent., and 22.10 per cent. were intercepted during the three years, respectively. The trade in paddy is practically carried on through Hantoopara alone, where over 98 per cent. of the total exports were registered in each of the three years; the rest passed through Ambari. In the past year's supplies of silk stuffs there was a large falling off of 45.69 per cent. as compared with 1884-85, and of 46.38 per cent. as compared with 1883-84. Of the total exports, Ambari registered 57.13 per cent. in 1885-86, 31.47 per cent. in 1884-85, and 67.09 per cent. in 1883-84; the rest passed through Hantoopara. The trade in betelnuts fell from 2,958 maunds in 1883-84, and 2,446 maunds in 1884-85, to 1,671 maunds in the past year. Buxa continued to be the chief exporting station, the quantity registered there during the year being 76.84 per cent. of the total supply, against 86.10 per cent. in 1884-85, and 93.31 per cent. in 1883-84. The exports of undrained sugar, which rose from 1,325 maunds in 1883-84 to 1,990 maunds in 1884-85, fell during the past year to 975 maunds. Of the total supply during the past three years, Hantoopara registered 56.41 per cent. in 1885-86, 76.73 per cent. in 1884-85, and 77.36 per cent. in 1883-84; Buxa, 22.25 per cent., 15.62 per cent., and 8.53 per cent., respectively; and Ambari 21.34 per cent., 7.65 per cent., and 14.11 per cent., respectively. Tobacco also showed a large falling off of 1,788 maunds, or 38.05 per cent. as compared with 1884-85, and of 1,872 maunds, or 39.14 per cent., as compared with 1883-84. The largest supplies are exported *via* Hantoopara, which registered 58.75 per cent. of the total quantity in 1885-86, 42.49 per cent. in 1884-85, and 44.98 per cent. in 1883-84; Buxa intercepted 21.57 per cent., 29.77 per cent., and 32.07 per cent., respectively; and Ambari, 19.68 per cent., 27.74 per cent., and 22.95 per cent., respectively. The trade in manufactured woollen goods, which is carried on through Buxa alone, showed a considerable decrease in value of Rs. 3,301, or 65.39 per cent., as compared with 1884-85, and of Rs. 1,935, or 52.55 per cent., as compared with 1883-84. "All other articles of merchandise unmanufactured" showed a trifling increase of Rs. 338 over the trade of 1884-85, and a large increase of Rs. 2,108 over that of 1883-84. The total value (Rs. 3,780) of the goods under this head exported during the past year is made up of Rs. 3,693 worth of sandalwood, and Rs. 87 worth of betel-leaves.

32. The unsystematic manner in which trade is taxed in Nepal makes it difficult to give a clear account of the frequently varying charges on different classes of goods; but attention continues to be given to the subject, and the information collected during the past year in the several frontier districts is summarised in the following paragraphs.

33. *Chumparun*.—The following changes of rates were made during the year in the three toll stations of Blichha Khor, Hetaura, and Shisa Gurhee, near the Ruxoul registering station:—

			Rate in 1884-85.	Rate in 1885-86.
Cotton, raw	10 lohia pice, i.e., about 1½ annas per maund.	2½ Rs. per 100 rupees' worth.
Cotton manufactured—				
Piece-goods	5 annas per 100 rupees' worth	2 Ditto ditto.
Dyeing materials—				
Indigo	29 lohia pice, or about 4½ annas per 100 rupees' worth.	8 Ditto ditto.
Metals, and their manufactures—				
Brass and copper utensils	25 lohia pice, or nearly 4 annas per 100 rupees' worth.	2 Ditto ditto.
Provisions—				
Dried fruits	6 annas per maund	
Spices	From 2 lohia pice, i.e., about ½ of an anna to 6 annas per maund.	
Sugar undrained (gorr)	3 lohia pice, i.e., about ¼ an anna per maund.	
Tobacco	Ditto ditto	1.2 Ditto ditto.

Shawls, on which no impost was levied either in 1883-84 or 1884-85, were last year charged at the rate of Rs. 2 for every 100 rupees' worth, as in the case of cotton piece-goods, brass and copper utensils, dried fruits, and spices. The changes noticed above are, the Collector writes, "due to the fact that the rates of duty are not fixed by the Nepalese Government, who, where the farming system is in force, exercise no direct interference with the farmers of this branch of revenue. Where the farming system is not in force, these imposts are levied direct by the Government officials according to rates regulated by custom."

The following rates of duty are levied on the undermentioned articles at Katmandoo and other principal places in Nepal:—

	Rs. A.
Yak-tails, spices, and medicines	4 10 per md.
English coin	2 8 per cent.
Storax and borax	0 14 per md.
Musk with skin	2 8 per seer.
" without skin	7 8 " "
Elephants	20 0 per head.
Horses	from Rs. 4 to 15 0 " "
Other articles	5 0 per cent. on the value of goods sold.

34. *Purneah.*—Since 1883-84 no changes are said to have been made in the duties levied on the borders of the Kissengunge Subdivision, though the *chowdhuries* or collectors sometimes reduce the rates in favour of their friends. Some alteration was, however, made last year in the rates charged on the traffic registered at the stations of Siktee, Amona, and Nawabgunge in the Arrareah Subdivision. The changes embraced the imposts levied under the three heads mentioned in paragraph 7 of the previous year's report, viz.:—

- (1). Taken at chowkies.
- (2). Taken from shop-keepers at hâts or markets.
- (3). *Nikasi*, or duties taken by *ijaradars* or contractors or farmers from persons purchasing things on market days.

The second of these imposts is not, strictly speaking, an import or export duty, having some analogy to an octroi, but it must have the effect of checking trade, and may therefore properly be noticed here.

The following statements show the changes made in the duties levied under each of the three heads:—

35. *Darjeeling*.—The number of collecting stations in the Nepal terai remained the same as in the previous year, viz., five. In the hills, however, two new outposts were created, viz., one at Teringdobhan and the other at Amjana, thus raising the number of toll stations in the hills from 5 in 1883-84 and 1884-85, to 7 in 1885-86. Formerly the imposts were levied under the farming system, but it is said that this system was abolished during the year under report, and direct management introduced. Under the latter system two men—one called *hawaldar*, and the other *mohurir*—are posted at each station, and they make the collections.

The subjoined abstract shows the changes which were made during the past year in the rates of duty levied at the hill and terai toll stations on articles imported from Nepal:—

ARTICLES.	TAX DURING		
	1884-85.	1885-86.	
	As. P.	As. P.	
Sheep and goats ... Each	4 0	2 0	} At all the hill stations and at Broongtar in the Terai.

Oil-seeds other than mustard-seed ... Ditto	2 0	
Woollen goods	
Brass	8 0	
Iron	
Spices	1 0	} Ditto ditto. At Feekul the rate in 1884-85 was 1½ annas. This tax was levied only at Amjana, one of the new hill stations.
Curdled milk	
Jute, raw	1 0	
Gunny-bags	} At all the hill stations except at Monglong and Broongtar.
Skins of sheep, goats, and other small animals... Ditto	0 6	

Raw cotton, betelnuts, and sugar (drained and undrained), which were exported to Nepal free of duty in 1884-85, were last year taxed at a uniform rate of 8 annas per cooly-load at all the hill and Terai stations.

36. *Durbhunga*.—In the report for 1883-84, a detailed account was given of the imposts levied on the borders of this district. In the following year, no alteration was made either in the system or in the rate of taxation, but for the year under report the Collector has furnished a new list showing the rates of duties levied on articles imported and exported. This list is based on information collected by the Subdivisional officer at Madhubani, on the occasion of his movements along the frontier during his cold weather tour. The different places at which the enquiries were instituted by him were Joynuggur, Madhwapore, and Deodha. The new list does not agree with that published in 1883-84, and the reasons for the variation are attributed by the Collector to the old complaint that "no regular customs posts are maintained by the Nepal Government, and the duties are levied on the farming system. The farmers seem to endeavour to levy as much as they can from the traders, and no notice is taken of their exactions by the Nepal authorities." An abstract of the information that has been gathered on the subject is given below.

The import and export duties levied were according to pony or bullock-load, cart-load, cooly-load, banghy-load, bundle, and maund, and were charged either by the year, or by the trip, as specified below :—

	Per bullock or pony-load for the whole year.	Per cart-load for the whole year.	Per cooly-load for the whole year.	Per cart-load each time.	Per bullock, pony, or cooly-load each time.

37. The imports of untaxed foreign salt from trans-Himalayan sources are rapidly declining, as the following statement shows :—

The imports into Darjeeling during 1885-86 were less than half those of the preceding year, and about one-fourth those of 1883-84. The quantity imported into the Julpigoree district, however, increased by 26·47 per cent. as compared with 1884-85, and by 15·39 per cent. as compared with 1883-84; as usual the whole of the past year's supply was registered at Buxar. The following statement shows the places from which the imports into the Darjeeling district were received during 1885-86 :—
